IL100,000 Scholarships Regional Reference Lab For Vocational Studies For Vocational Studies

A total of 1,180 scholarships worth IL100,000 were awarded jointly the past year to students attending vocational schools by the Ministry of Labour on the Jewish Agency. More then 1,600 applications were received.

The scholarships were awarded on a point system which took into account the financial and accial position of the student's family, the proximity of the school to the family's residence, the student's solility and diligence and the subject.

During the preceding year only 300 scholarships worth IL170,000 were awarded to students of vocational schools. For Diseases Study

At the Cinema "BLACKBOARD Jungle" (Esther), the film which has aroused so much controversy and was withdrawn from the Italian Film Festival last year owing to the objections of the U.S. Ambassadress, turns out to be a very serious, well-intentioned and even courageous picture.

ed and even courageous picture.

Its theme is the education of the "bad boy" and the scene is set in a trade school in which most of the pupils are hooligans with no desire to learn. Some are indeed incorrigible but the teacher around whom most of the action revolves (Glenn Ford) does ultimately make contact. The film is excellently produced and acted and put through at a breath-taking pace. Every adult should see it.

NEW YORK, Tuesday (Reuter).

The Stock Market dropped again today for the second day for the second day for unning because of the uncertainty over whether President Sign flow Re. (Larse) and second term.

Reel and motor shares were the main losers. There was a mild rally during the morning, but renewed selling brought further losses.

Wall Skreet observers believed investment demand would not be felt until the uncertainty about Mr. Elsenhower's future plans was removed. Weakness in car shares was put down to forecasts of lower sales this year.

London 'Change
London Tuesday (Reuter).—
The stockmarkets showed declines from the opening today, with practically every section affected. Various adverse influences brought about the setback of which the motor industry production cut was the most important. A slight technical rally failed to last and prices finished at the lowest depressed in the last minutes by the opening dall-ness of Wall Street. Gilt-edged were finally up to three quarters lower. Falls in industrials ranged from a few pence to over five shillings and Bine Chips were among the worst sufferers. Big fails occurred in Vickers, Rolls Royce, Associated Electrical Industries, Associated Cements, British-American Tobacco, and Imperial Chemicals. Oils fluctuated and finished at the bottom. In South American Issues, Brazilian biplan stocks advanced on the distribution of annuities news, while Chilean northern debentures were lower.
